

| Type                      | Example | What to Look For |
|---------------------------|---------|------------------|
| <b>Synthesis</b>          |         |                  |
|                           |         |                  |
| <b>Decomposition</b>      |         |                  |
|                           |         |                  |
| <b>Combustion</b>         |         |                  |
|                           |         |                  |
| <b>Single Replacement</b> |         |                  |
|                           |         |                  |
| <b>Double Replacement</b> |         |                  |
|                           |         |                  |
