

Post-Studying Practice Test Analysis

- 1) Set you page up like you see below
- 2) Write down the question numbers you missed
- 3) Identify what topic they correspond to.
- 4) Correct the problems you missed. Show work for the math problems, or write a sentence or two explaining the non-math problems
- 5) If you didn't miss any questions then pick five problems that were hardest for you and spend one minute reviewing and writing down a little summary about the topic where the correction would have gone.

Q# Missed	Topic the Q was about	Correction either math or written sentences
