

<http://www.sciencegeek.net/Chemistry/taters/Unit4Stoichiometry.htm>

- Show all work for each problem on page 150
- Print the page when all your answers are typed in – BEFORE you hit “check work” at the bottom
- Then press “check work”– it shows which you got wrong
- Fix all your work until you get them all correct. Print the page again once it shows you got them all correct.
 - Fix the work on page 150 as you correct them.
- Turn in both printed pages as follows:
 - On top - Page BEFORE you checked your work
 - Name, period, seat number written on this top page
 - On the bottom - Page showing 100% correct
