

Science Photo Project

Photo criteria:

- ❖ Take a photo, or cut one out of a magazine, then explain what aspect of Thermochemistry is shown in a photo.
- ❖ The photo must be 8 x 10 inches and must be glued on as a flippy.
- ❖ The photo may be in color or black and white.
- ❖ If the photo is taken with a digital camera, the electronic file must be put into the school loop drop box for the assignment.

Under the photo flippy you will type of the following and glue it onto the notebook paper:

- ❖ The photo must be given a TITLE
- ❖ Explain in no more than three sentences if it is a “Natural” or “Contrived” photo
- ❖ Bullet point list of the Main Science Concept(s) shown in the photo
- ❖ ½ page TYPED explaining the Main Science Concept
