

# Honors Chem - Thanksgiving Break To-Do List

www.mychemistryclass.net

## **Make sure all ions are memorized!**

- Yes, we will have more ion quizzes! We will be adding formula writing to ion quizzes from now on to make sure you don't forget how to use your ions!
  - R2 – Common Ion Sheet

## **Practice writing and naming formulas!**

- You have lots of practice available in your extra worksheets, on the class website, and the entire internet!
  - Consider doing a little bit of WS #16\* from the Blue Rainbow Packet, Bonding and Structure Chapter.

## **Review Dimensional Analysis**

- PLEASE remember that all units must be present, and the dimensional analysis line method must be used in order to earn credit! I will be nit-picky about all your units! You have been warned ;-)
  - Consider reviewing the following assignments:
    - N2 – YouTube Lecture
    - Red Rainbow Packet, Chemistry Basics – WS #3, 4, 7\*
    - Blue Rainbow Packet, Bonding and Structure – WS #7

## **Get your binder and composition book in order**

- We still have an entire chapter to learn after vacation, and then review for the final exam! Please make sure you are coming back from break organized, prepared, rested, and ready to hit the ground running. Don't lose focus for the last few weeks! You can do it, you are almost there! 😊
