

Dougherty Valley HS Chemistry

Evidence of Self Study

Chapter 1 Chemistry Basics, Chapter 2 Nuclear Chemistry

You must fill this page front and back with evidence that you have self-studied the chapters indicated in the title of this page. You can do practice problems from the starred optional worksheets given to you during the year, you can take notes on YouTube videos, you can take notes during a study session, you can make a new one pager type assignment, you can find extra problems on the internet to do, etc etc etc. If you need more than this piece of paper to show adequate studying of the chapters (a really good idea!) then just staple extra to this paper. You should be studying a minimum of an hour per chapter before the final. This assignment should show significant thought, effort, and time spent reviewing for your final! Please clearly identify what your evidence is – label if it is from a specific worksheet, give the link to the YouTube video, list who you were studying with, etc.
