16*		<i>This optional worksheet was not printed for you, does not need to be in your packet, it is too long. If you want to print and do some of it that is great! Then include that in your packet.</i>				

* means doing the problems was optional, but the handout must be in the packet. If you did any of the problems, please include the binder paper after the worksheet handout!

During Remote Learning – if you did not print the worksheets then you will do the work directly on binder paper. CLEARLY label the heading of all binder paper so I know what I am looking at. Including Worksheet Number and Title. If you did not print the (*) optional worksheets then include a blank piece of paper with Worksheet Number and Title as a place holder.
