

Dougherty Valley HS Chemistry
Spring Final Exam Review
Chapter 9 and 10 Evidence of Self Study

S-41

Name:

Period:

Seat#:

You must fill these pages with evidence that you have self-studied the chapters indicated in the title of this page. You can do practice problems from the starred optional worksheets given to you during the year, you can take notes on YouTube videos, you can take notes during a study session, you can make a new one pager type assignment, you can find extra problems on the internet to do, you can use the list of Representative Questions made in class, etc etc etc. If you need more than this packet to show adequate studying of the chapters (a really good idea!) then just staple extra to this paper. This assignment should show significant thought, effort, and time spent reviewing for your test!

Please clearly identify what your evidence is – label if it is from a specific worksheet, give the link to the YouTube video, list who you were studying with, etc.

Chapter 9 – Gas Laws
