

Week 1 Packet – Honors Chem

This is hopefully all the handouts we will use this week in Honors Chem. Due to the challenging logistics of this year, please offer grace if I miss a handout or if things change during the week.

You are not required to print! I understand that may not be possible for everyone. However, if you can print it will make things a little easier! The packet is set up to be printed double sided. Some printers don't print double sided, but you can tell it to print the odd pages first, take the papers that just printed and put them back in the printer tray, and then print the even pages. I am trying to figure out how I can print packets for students and hopefully leave them outside of school for people to pick up if they want a packet. As soon as I know whether or not this is allowed I will let you know!

Please note –All of these pages are on the class website, always!
www.mychemistryclass.net

Please keep in mind that we are operating under the assumption that we will return to school at some point this year! So make sure you are doing your work, keeping your work, and keeping it organized! I will check your 3-ring binder and composition book when we return so you want to make sure you are setting yourself up for success by doing your work now!

Sections of your 3-ring Binder

R – reference section

S – study materials

WS – worksheet from a rainbow packet

N – notes, will be numbered N1, N2, etc (a glue in for your composition book)
