

# Intro to Notebook Pages

## Regular Chem

This is all the Intro to the Notebook Reference Sheets we will put in the first set of pages in our Interactive Notebook.

**You are not required to print!** I understand that may not be possible for everyone. However, if you can print it will make things a little easier! **There are blank pages so it can be printed double sided!** Some printers don't print double sided, but you can tell it to print the odd pages first, take the papers that just printed and put them back in the printer tray, and then print the even pages. I am trying to figure out how I can print packets for students and hopefully leave them outside of school for people to pick up if they want a packet. As soon as I know whether or not this is allowed I will let you know!

**Please note** – I will never ask you to print this many pages in a single document again! These are all of the “reference pages” that we use all year long. All of these pages are on the class website, always! I am really hoping to be able to get you printed packets! If you can't print these pages then make sure to skip those page numbers in your notebook and leave them blank so that when I can get you packets down the road then you can glue them into the blank pages you skipped.

Please keep in mind that we are operating under the assumption that we will return to school at some point this year! So make sure you are doing your work, keeping your work, and keeping it organized! I will check your Interactive Notebook when we return so you want to make sure you are setting yourself up for success by doing your work now!
